## DESIGN

Good looks are usually hereditary, and this definitely holds true in the case of MINI. Based on the original design-to-space concept, MINI lives up to its reputation as the one-off small car that creates space on the inside and saves space on the outside.

## SAFETY

Six airbags as standard, disc brakes all round, Anti-lock Braking System (ABS with CBC, EBD and Brake Assist) and Dynamic Stability Control (DSC) make the MINI Cooper S one of the safest driving experiences you can have.

## ENGINE

The sleek bonnet of the MINI Cooper S conceals a veritable bundle of energy: a twin-scroll turbocharger paired with a six-speed gearbox, Overboost function and a whopping 184 bhp. This is an engine able to provide verve whenever the need arises. And it doesn't only perform like a premium engine – the noise and vibration levels make it feel and sound like one too.

Fuel consumption combined (km/ltr) 5.8 [6.4]  
CO<sub>2</sub> emission (g/km) 136 [149]  
Figures for automatic cars are shown in [ ].

## DRIVING EXPERIENCE

The wheels of the MINI are pushed out to each corner of the car, giving it a low centre of gravity and superb go-kart style handling. This is enhanced by the multilink rear suspension – a rare feature in a small car. It makes sure that the rear wheels of the MINI are always in full contact with the road, no matter how bumpy. Gripping stuff!
