## DESIGN

It's got more extra under the bonnet and more muscle on the surface, too. Yet the design of the MINI John Cooper Works – strikingly compact on the outside, deceptively large on the inside, ground-hugging for the tightest of bends – remains unmistakably MINI.

## SAFETY

The MINI John Cooper Works offers some of the highest protection factors you could wish for, including:

- six airbags as standard;
- performance disc brakes all round;
- Anti-lock Braking System (ABS with CBC, EBD and Brake Assist);
- Automatic Stability Control + Traction (ASC+T);
- Dynamic Stability Control (DSC) with Dynamic Traction Control (DTC) and Electronic Differential Lock Control (EDLC) – unique among front-wheel drives.

## ENGINE

Wild, uncompromising and bursting with energy: it's not just an engine that the MINI John Cooper Works has under its bonnet. It's a veritable power plant. With its twin-scroll turbocharger, it generates a fearsome 260 Nm torque, with the Overboost function getting it up to a whopping 280 Nm.

Fuel consumption combined (ltr/100 km) 7.1  
CO<sub>2</sub> emission (g/km) 165

## DRIVING EXPERIENCE

The wheels are pushed out to each corner of the car, giving it a low centre of gravity and superb go-kart style handling. This is enhanced by the multilink rear suspension – a rare feature in a small car. It makes sure that the rear wheels are always in full contact with the road, no matter how bumpy. Gripping stuff!
