## DESIGN

Good looks are usually hereditary, and this definitely holds true in the case of MINI. Based on the original design-to-space concept, MINI lives up to its reputation as the one-off small car that creates space on the inside and saves space on the outside.

## SAFETY

Six airbags as standard, disc brakes all round, Anti-lock Braking System (ABS with CBC, EBD and Brake Assist) and Dynamic Stability Control (DSC) make the MINI One one of the safest driving experiences you can have.

## ENGINE

Busy city streets don't seem all that busy in a MINI One. The 1.6 litre engine with fully variable valve timing, six-speed transmission and MINI typical zippiness are ideal for the ins and outs of urban motoring. Not only does the engine deliver fine performance, it also achieves remarkably low emissions levels and fuel consumption.

Fuel consumption combined (ltr/100 km) 5.4 [6.4].

CO<sub>2</sub> emission (g/km) 127 [150].

Figures for the MINI One (72 kW) with automatic transmission Steptronic are shown in [ ].

## DRIVING EXPERIENCE

The wheels of the MINI are pushed out to each corner of the car, giving it a low centre of gravity and superb go-kart style handling. This is enhanced by the multilink rear suspension – a rare feature in a small car. It makes sure that the rear wheels of the MINI are always in full contact with the road, no matter how bumpy. Gripping stuff!
